

# John#1 (The Eldest of all) Meaden

Buried 29/4/1611

Had a least 2 children John #2 and a brother, who for sake of argument, we will call Plume. Possibly Plume was the older of the two and married first. He had a son John#3.

John#2 married an unknown and also had 2 sons John#4 and Charles (all of which took place before 1572 and registration).

Register of baptism's now starts

20/12/1572 Dorothy Meden (could be either Plume or John#2's Daughter, unlikely John #1)

26/10/1575 Agnes daughter of John Meaden (no need for a suffix as Charles's son John#3 is still a boy)

24/6/1590 Alexander son of John Meaden the younger (a suffix is now required to differentiate between Thomas's son and John#2)

26/12/1591 Joane daughter of John Meaden the elder (the vicar now needs to give John#2 a suffix)

John the elder's wife died around this time possibly at the birth of Joane. He marries for a second time to Edith Seaman 11/2/1593

23/9/1593 Sarah daughter of John Meaden the younger

19/12/1593 Leonard son of John Meaden the second (the vicar now changes from John the elder to John the second to denote the second marriage, and from this time on there is no mention of a John the elder.

6/3/1596 Armenell daughter of John Meaden the younger

13/3/1596 Robert son of John Meaden the second

16/12/1599 Thomas son of John Meaden the second

30/3/1600 Amye daughter of John Meaden the youngest (probably the younger)

22/8/1602 Emanuel son of John Meaden the second

25/7/1605 John son of John Meadyn and Agnes (this is John#4, all further references to him are as John Meaden the middle)

5/7/1607 Edith wife of John meadyn ( the second ), and mother of John Meadyn (the middle ) dies

1/5/1608 Charles son of John Meadyn the middle and Agnes

31/3/1611 Mary and her sister Agnes daughters of John Meadyn (the middle) and Agnes.

 3/12/1637 James son of Thomas and Edith (of Galton)  
 8/5/1639 Frances daughter of John and Mary

A Margaret Meaden Married John Read in Owermoigne 1589 . Margaret was probably the sister of Unknown brother and John (the Elder/Second )  
 After Edith Meaden died in 1607, John the middle and his wife Agnes raised Emanuel as their son until his death in 1610. Emanuel was in fact John the middle's Baby half brother. Presumably John the Elder /second could not look after him as he himself was at work all day, and Joane had enough to do looking after Robert and Thomas.
